Something new and exciting

- Livestock Behaviour and Handling workshop
- Dr Liz Pryor B.Sc(Zoology), B.Sc, BVMS, MANZCVS

- Livestock vet for more than 15 years working both here in Australia and also New Zealand.
- She holds a number of post graduate qualifications in livestock health and is a passionate trainer in livestock handling.
- Liz has also been a volunteer in the emergency services for nearly a decade and has a wealth of experience in managing livestock during and after emergency events.
- She holds nationally accredited qualifications in Firefighting operations and technical rescue.

Live stock behaviour and handling seminar

- 1) Horse and Livestock Behaviour
 - Understand why livestock behave the way they do
- 2) Large animal handling techniques
 - Understanding the principles of safe livestock handling
- 3) Putting it together
 - How to handle livestock effectively and safely using behaviour principles How to use these principles in the field Scenarios and tabletop exercises

Some general tips from Dr Liz

640248506 PM

- Identify each animal
- Horses: brand or microchip, make sure your details are up to date on the database
- Livestock: Ear tags, NLIS tags
- Pets: Microchip and check your details are up to date on database

 Prepare information sheets that include photos of your stock and details of their identification—microchip details, NLIS tag numbers etc

Something simple..

PLANNING TO EVACUATE WITH LIVESTOCK:

- How are you going to transport?
- -Float, trailer, truck?
- Where are you going to go?
- Determine evacuation routes ahead of time
- Have a back up in case roads are closed
- You will need supplies for at least 3 days
- -Feed, water, medications etc
- Turn off electricity at the mains as you leave

PLANNING TO LEAVE LIVESTOCK BEHIND

- You will need a "safer area"
- An open space
- allows stock to move freely and escape flames as they pass
- Not a fenced yard or stable they need space
- Plan for a lack of power

We offer council support

- Behaviour assessments
- Advice on barking complaints
- Advice on any matters regarding behaviour

Thank you
